Real-Time Jobs Intelligence Report

Sponsored by

INTRODUCTION

The data from the Real-Time Jobs Intelligence Report comes from Jobs EQ, a service that provides access to labor market data down to the zip code. This report is a snapshot of the Anchorage job market in the second quarter of 2019.

In this report, readers will find information on the types of jobs, education levels, certificates and hard and soft skills that are most sought-after in Anchorage. Readers will also find which jobs are more prevalent in Anchorage compared to anywhere else in the country with detailed Job Posting Location Quotient data.

This information helps to inform important business decisions, from tech schools using hard data to determine which certification programs are most critical, businesses using ad duration periods to identify which jobs are easiest to fill, to prospective employees deciding top certificates in which to invest their time and resources.

The appendix provides additional information to supplement this at-a-glance report. For more information, please reach out to AEDC Business & Economic Development Director Emma Irish at emma@aedcweb.com or 907-334-1210.

Total online job postings

total job posts in second quarter

9,777 job titles posted

- 9. Finance
- 10. Human Services

For complete list, see Appendix G, page 26

Top 10 positions by location quotient

This metric reveals how a given occupation in a certain region compares to that occupation on the national level. An LQ greater than, less than, or equal to 1.0 represents an occupation whose jobs are locally more than, less than, or equally prevalent to the national average, respectively. These top 10 positions are far more sought-after in Anchorage than anywhere else in the nation.

- Psychiatrists (4.75)
- Cardiovascular Technologists and Technicians (4.57)
- Diagnostic Medical Sonographers (4.51)
- Teachers and Instructors, All Other (4.25)
- Cleaners of Vehicles and Equipment (3.59)
- Data Entry Keyers (3.54)
- Recreation Workers (3.53)
- Billing, Cost, and Rate Clerks (2.90)
- Laborers and Freight, Stock, and Material Movers, Hand (2.84)
- 10. Construction and Building Inspectors (2.78)

Frequently Asked Questions

What does Ads Closed mean? (Proxy for Hires) - The number of jobs that have been removed from listings within the designated time frame. While there may be other reasons for listings being taken down (i.e. decision not to fill the position), this metric can serve as a reasonable proxy for the number of hires

What does Job Posting LQ mean? - The Job Posting Location Quotient ("JPLQ" shown in results). This metric reveals how a given occupation in a certain region compares to that occupation on the national level. An LQ greater than, less than, or equal to 1.0 represents an occupation whose jobs are locally more than, less than, or equally prevalent to the national average, respectively. For a given occupation, the IPLQ = (# of job ads locally / employment locally) / (# of ads in USA / employment USA).

What is SOC? The standard Occupational Classification system (SOC) is used to classify workers into occupational categories. RTI classifies workers in one of the 1,090 8-digit level codes known as the O*NET-SOC Occupational Listings. In addition, occupations are combined to form 23 major groups (2-digit level), 97 minor groups (3-digit), and 461 occupation groups (5-digit), and 840 detailed occupations (6-digit). Each occupation group includes occupations required similar job duties, skills, education, or experience.

How does the time period work? Online job postings included in this report are those that meet the Query Definition parameters (shown above) and that were active at any point in the specified time frame preceding the date this report is generated. As such, this report may include some ads that were closed as of the date of this report; in addition, this report may include some ads that were first posted prior to the specified time frame referred to above.

What are "active" and "closed" ads? An "active" ad refers to an online job posting that was still posted online when Chmura's web crawler last viewed that page, which occurs at least once a week. An ad is considered "closed" if Chmura's web crawler no longer sees the ad listed or if the ad is specifically designated on the site as no longer being active.

Is every online-job-ad website included in these data? We make every attempt to catch all of the significant job-posting websites across the United States, but we cannot guarantee complete, 100% coverage. If you have any questions about a particular website, please don't hesitate to ask.

What certifications are included and how are they defined? We include over 3,000 different certifications in our job ad analyses. A complete list can be found in the JobsEQ help section, along with further information about those certifications.

About This Report This report and all data herein were produced by JobsEQ®, a product of Chmura Economics & Analytics. The information contained herein was obtained from sources we believe to be reliable. However, we cannot guarantee its accuracy and completeness.
